## DETAILED ACTION

### *Acknowledgements*

1. In accordance with the RCE noted above, Applicant's amendment filed March 28, 2005 is acknowledged. Accordingly, claims 1-9, 11, and 19-24 remain pending. These claims are now allowed.

2. The following is an examiner's statement of reasons for allowance:

3. The primary reference Wexler (U.S. 5,960,409) discloses as previously discussed. Wexler however does not disclose the combination of the claimed state information; debiting a traffic generator account a debit amount related to the state information; determining a credit amount based on a measure of traffic volume with the redirection code; and crediting the credit amount to the traffic generator account while facilitating a barter transaction in which at least a right to use the network resource is exchanged for at least a portion of the traffic. A combination of these and the other recited features was not reasonably found in the prior art.

4. The Examiner notes that a "general term must be understood in the context in which the inventor presents it." *In re Glaug* 283 F.3d 1335, 1340, 62 USPQ2d 1151, 1154 (Fed. Cir. 2002). The Examiner therefore interprets the claimed terms as found on pages 1-17 of the specification. Clearly almost all the general terms in the claims may have multiple meanings. So where a claim term "is susceptible to various meanings, . . . the inventor's lexicography must prevail . . . ." *Id.* Using these definitions for the claims, the claimed invention was not reasonably found in the prior art.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
